

Increase product quality and reduce changeover time

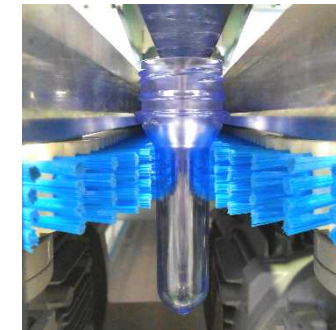

Easy Feed

VALUE AND BENEFITS

- Better hygiene production with no dust: no recycling loop to the hopper
- Quick and easy changeover with limited settings
- Optimal solution for high output up to 80000 b/h
- Reduced foot print and overall height
- Easy to operate working at ground level: no walkway, no risk of operator falling

DESCRIPTION

- Sorting of the preforms made by a rotating table
- Transfer by the neck flange all along the path
- Preform conveyed by the body with 2 moving brush belts
- Dedicated Easy Feed pages integrated in the Matrix blower HMI, with the same ergonomics
- Production setting included in the process recipe

Value: Efficiency, Product quality

Equipment: blowers Universal
