

# Less downtime and reduce maintenance cost

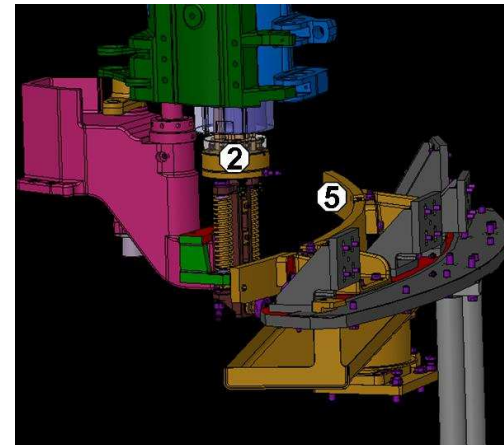

## Universal mold base for Series 2

### VALUE AND BENEFITS

- Better reliability, a single base mold cam, no more pivot, no more pneumatic cylinder, less wearing parts, less maintenance.
- Safer and quicker format change over.
- Perfect match with the speed up kit upgrade (n°965) , thanks to the shorter stroke.
- Same parts than Universal machines.

### DESCRIPTION

- Normally down base mold become (2) normally up base mold.
- Base mold down cam and base mold up cam are merged together: (5) only one cam
- Base mold stroke is reduced to 56mm. The stroke cam is bolted on its support, various possibility of adjustment will allow a perfect leveling.

Value: Efficiency, Cost optimisation  
Equipment: Series 2 blowers
