

# Increased splicing speed for top quality splicing on thinner labels

## AA36 – Splicing optimization

### VALUE AND BENEFITS

- Improved capability to manage thinner labels
- Increased splicing speed
- Enhanced reliability

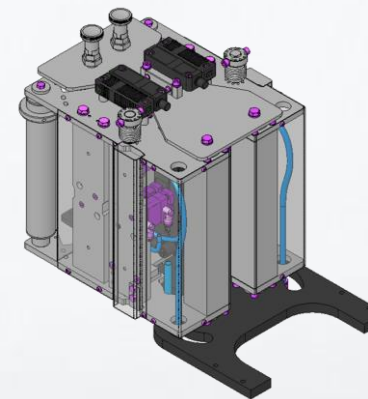

### DESCRIPTION

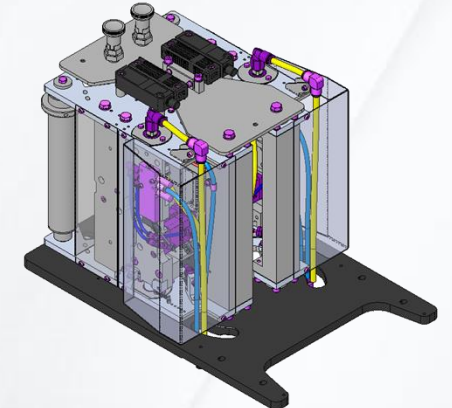

Enhanced splicing module with latest technology

- New shear joints
- Air piping modified
- Contactless encoder
- Low friction rollers
- tilting movement of interior doors (pads)

Current

New

Value: Efficiency,  
Equipment: EvoDECO Roll-Fed, SSC
