

## KEY FIGURES

### Budget price:

20k €

### Payback estimation:

NA

### Installation time:

NA

### Machine downtime:

None

### Lead time to deliver:

12 – 14 weeks

\*These data are approximate and not definitive, depending on your machine configuration.

### Machine application:

- EvoDECO Roll-Fed, SSC

### Can be bundle with:

- AA31, AA32, AA33, AA34, AA35, AA36

# Dry-ice blasting for a perfect cleaning

## Ref. AA37 - Glue roller Cryogenic Cleaning

### BENEFITS

- Accurate and effective
- Time saving: cleaning directly on board the labeller
- No glue roller accidental damage
- Environmentally friendly
- Safer operation (no toxic): no need of chemicals or any other abrasive agent, no hands on glue roller
- Sidel tested system

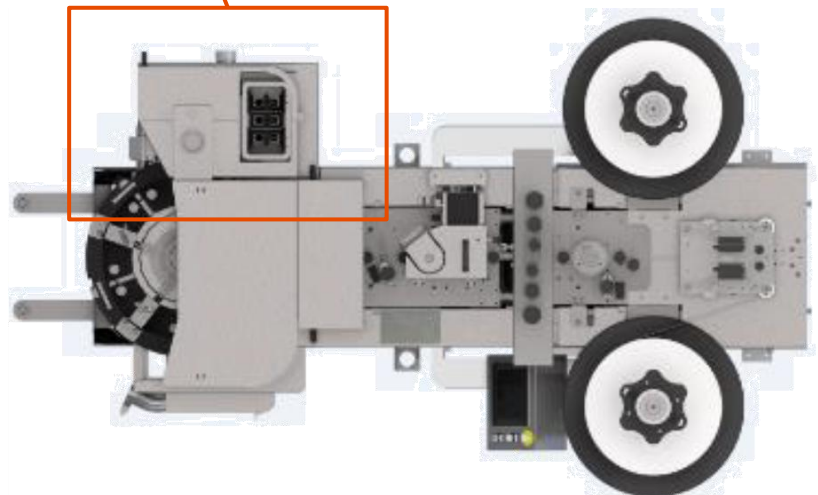

### DESCRIPTION

- The scope of supply is made of
  - a Dry-ice blasting machine
  - a cover to protect the subassembly to be cleaned
- Cryogenic cleaning is a cleanliness technique that uses dry ice and its physical properties as a mean of an instantaneous detachment of pollution or dirt.
- Dry ice (solid carbon dioxide) has the hardness of chalk, so this process gently cleans surfaces.
