

Packing

# Spacing-out Module

Module to space products out, with no product orientation, and at a precise and given distance between centres (to replace worm screws)

## Applicability

Any machine supplied with a spacing-out screw.

*Subject to detailed feasibility study for your own equipment  
Contact your Service Account Manager for additional info*

## Your advantages

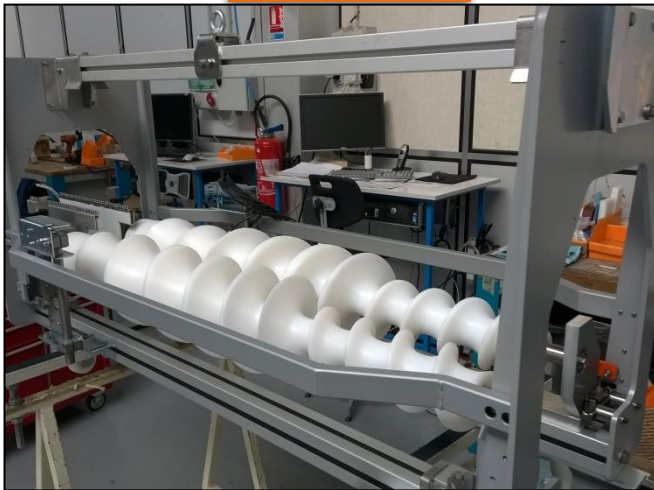

Productivity

- Optimized number of sets of toolings
- Time savings during changeovers

Ergonomics

- Reduces the number of changeovers

BEFORE

AFTER

*No contractual picture*

## Technical description

- Servo-motorized module comprising two lateral bands, able to deliver the products spaced-out on a conveyor.
- System to space-out fragile products with delicate labels.
- Plug and play implementation with same motorization as screw tooling.
- System common for several formats.
