

# Reduces the work-related diseases related to changeovers

## Lightweight funnel

### VALUE AND BENEFITS

#### Ergonomics

- Considerably reduces the work-related diseases (MSD) linked to changeovers.

#### Efficiency

- In most cases, only one operator is required to handle the lightweight funnel. This has a potential positive impact also on changeover time..

### DESCRIPTION

- Optimized and innovative design enabling an important reduction of funnel weight.
- Weight reduced by up to 45% compared to a standard funnel.
- An operator can easily carry it.
- Manufacturing quality and reliability still guaranteed.

Value: Safety & Ergonomy  
Equipment: Packing Corcelles
