

KEY FIGURES

Budget price:

50 K

Payback estimation:

One years

Installation time:

1 Days

Machine downtime:

1 Days

Average delivery time:

24 weeks

Can be combined with:

- Automatic Lubrication EOL027

Machine application:

- All

Targeted sub assembly:

- Machine Human Interface

SMART HMI

O&U ID: EOL019

Efficiency

DESCRIPTION

- New software for HMI

BENEFITS

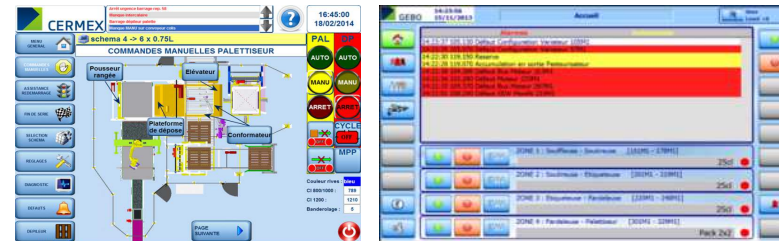

- Modern look & feel
- Modules oriented
- More intuitive and user friendly
- Increased detail of the production process and machine status
- A lot of new functionalities and Apps
- More information, Smart tips, Tutorials, Video, Wizards to increase machine management performance
- Data reporting with possibility to export to USB or cloud

DELIVERABLES

- Intuitive navigation system
- Modular Approach
- Machine progress graphical animation
- Contextual help and smart assistant
- Multitouch gesture
- Alarm management and fault localization
- Multimedia OPL
- Advanced diagnostic
- Assisted restart

Before

Heterogeneous and not very intuitive

After
