

ELECTRONIC SPACING INLET

NEW INLET MODULE WITH FLAX CHAIN WITHOUT MECHANICAL STOPS TO IMPROVE PRODUCT QUALITY AND TO CONTAIN MAINTENANCE COSTS.

Applicability

See serial numbers below in green for applicable models

BEFORE

Your advantages

Maintenance

- No additional mechanical cost for a new palletizing pattern
- Cheaper in term of maintenance

Product Quality

- Improves packs stability and a softer packs handling.
- No product shock.

Efficiency

- During production, no mechanical adjustment for a forma change over
- No production stop caused by a fall of products due to mechanics (rollers and stops)

AFTER

Technical description

The packs line formation and rotation is performed with plastic low friction chain and with electronic spacing principles - elimination of packs spacers, better packs control and speed optimization.

Our guarantees

- Parts: 12 months
- Compliance with regulatory standards in force
- Constant support ensured
- Preserve the integrity of the machine
- Efficient After-sales service, spare parts, technical assistance
- Installation by skilled personnel

Conversion/delivery time & misc

- Level of complexity: HIGH
- Downtime (days): 7-10
- Delivery time (weeks): 9
- Need for training: Y
