### Your advantages

#### Efficiency

- Working with special shapes and sensitive contents.
- Quick format change without mechanical adjustments.

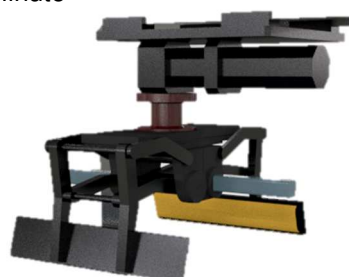

#### Product Quality

- Perfect rotation and positioning
- No product shocks

### Technical description

Axosmart can be applied in the beverage and food industries. Our flexible and fast system allows you to handle PET bottles, bottles, glass bottles, bottle clusters, bundles, cans, packs of cans, jars, glass containers, plastic crates, cartons, etc. The device is programmed according to the product to be treated and the need for composition of the layer, being integrated according to the palletizer or robot, upon their entry. In consideration of the required execution speed, the machine is equipped with one or two modules. Axosmart guarantees the efficiency of 97% -98% reaching more than 40 cycles / minute

### Our guarantees

- Parts: 12 months
- Compliance with regulatory standards in force
- Constant support ensured
- Preserve the integrity of the machine
- Efficient After-sales service, spare parts, technical assistance
- Installation by skilled personnel

### Conversion/delivery time & misc

- Level of complexity: HIGH
- Downtime (weeks): 2
- Delivery time (weeks): 12
- Need for training: Y
