

KEY FIGURES

Budget price:

40 K euro (20 lubrication point)

Payback estimation:

2 years

Installation time:

4 Days

Machine downtime:

2 Days

Average delivery time:

10 weeks

Can be combined with:

- EOL019 New SMART HMI

Machine application:

- Palletizer Evoflex

Targeted sub assembly:

- Various

Automatic Lubrication 4.0

O&U ID: EOL027

BENEFITS

- The right lubricant at the right point at the right time
- The system is fully manageable automatically and manually according to the needs and lubrication plan
- Reduced cost associated with lubricant consumption, machine availability and spare parts; by up to 25%.
- Maintenance works within dangerous areas are reduced

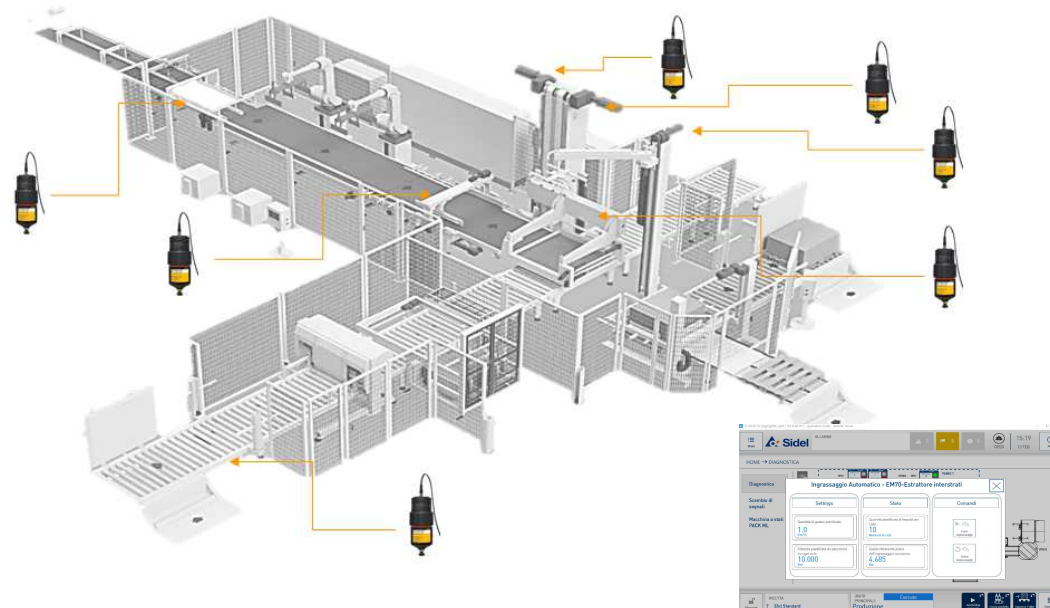

DESCRIPTION

- Intelligent lubrication cartridges fixed in each lubrication point with HMI interaction and data management

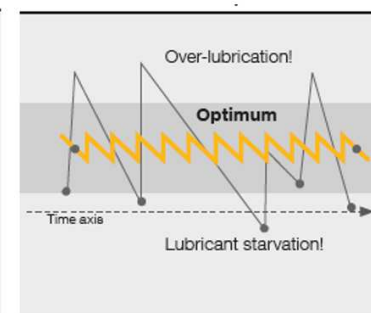

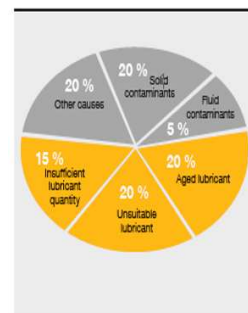

DELIVERABLES

- Reduced lubricant consumption
- Increase the lifespan of machines parts
- Reduced machine downtime
- Mitigated safety risks associated with maintenance activities

Sustainability/Cost optimization

The 4.0 lubrication system Helps to prevent up to 55 % of rolling bearing failures

The 4.0 lubrication system Reduces costs by up to 25 %
