

KEY FIGURES

Budget price:

3500 euro (machine equipped with 8 suckers head)

Payback estimation:

1 year

Installation time:

1 hour

Machine downtime:

1 hour

Average delivery time:

8 weeks

Can be combined with:

- EOL011 New pad dispenser
- EOL004 Pad interlayer storage

Machine application:

- palletizer and depalletizer

Targeted sub assembly:

- Pad inserter head

Reinforced Sucker Support

O&U ID: EOL053

Cost optimization/Maintenance

BENEFITS

■ Maintenance

Reduced wearing double the life of the parts; 12000 hours instead of 6000

■ Flexibility

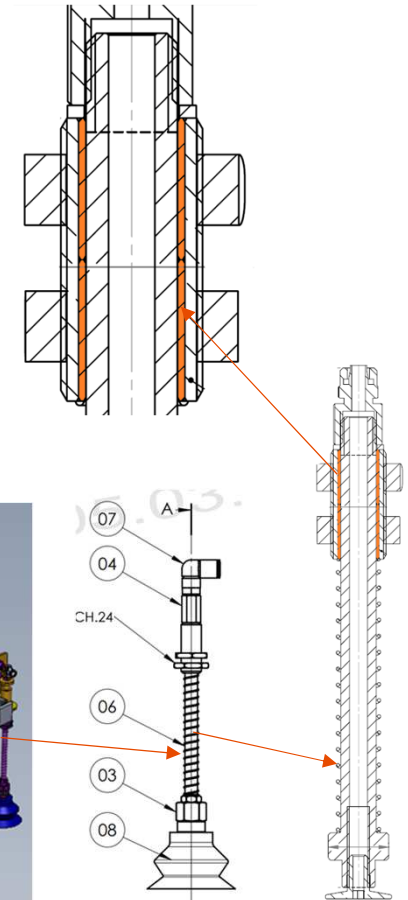

Same parts can be installed in Palletizer and Depalletizer

■ Efficiency

Customer can install by themselves with SOP

DESCRITION

- The upgrade consist of a new sucker group with new stem with steel bushing coated in high performance polymer PTFE; that replace the existing one without bushing.
- The improved surface finish of the new stem reduce bushing wear
- The precise sliding between the stem and the bushing reduces stress on the suction cup, extending also its life

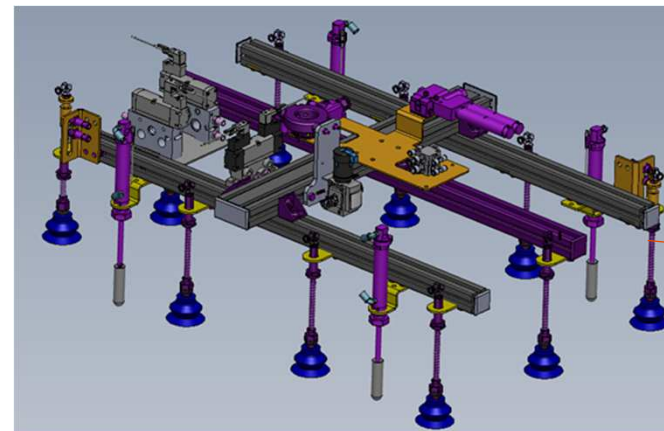

DELIVERABLES

- Improvement of the life cycle of the components

Cost-effective solution
