

Increase machine efficiency and reduce maintenance cost

■ Long Life O/C cmd. (mechanical filling valve)

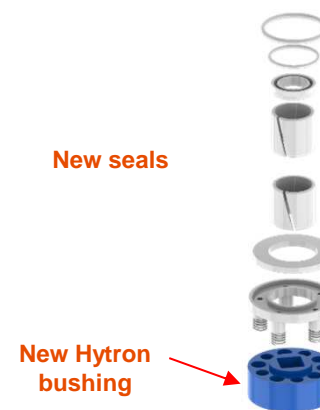

VALUE AND BENEFITS

- Increase filler reliability
- Reduction of maintenance costs – time savings
- Improve O/C mechanism lifetime span to 6000h
- Better cleanability of the O/C mechanism.

DESCRIPTION

- The new O/C mechanism, with a stainless steel inner part and plastic bushing, allows optimization of the filling valve functionality
- New materials used for the seal kit and bushing

Value: Efficiency – Cost optimisation
Equipment: Fillers Eurostar REP/REV & Starcans RSC
Catalogue code: HS096
