

## Budget price\*:

40.000€ for an average size machine

## Payback estimation:

NA

## Installation time\*:

Installation: 2 days  
Commissioning: 1 day  
(production monitoring)

## Machine downtime:

2 days approx

\*These data are approximate and not definitive, depending on your machine configuration.

## Machine application:

RMA, RMB, RMC, RMO, RME

# Pilot Valve Remote Mounting

Ref. HS143

**COST OPTIMIZATION**

## BENEFITS

- Facilitates external cleaning of the filling valve;
- Faster removal of the filling valve;
- More effective heat dissipation in case of hot filling process;

## DESCRIPTION

- The modification consists of separating the pilot valve from the fluid distributor to move it away from the filling valve, placing it on a dedicated support and protecting it with a cover against water splashes.
- Scope of supply:
  - new stainless steel pilot valve support
  - new pneumatic connection for each pilot valve
