

Anticipate Spare Parts shortage

New Warner unit

VALUE AND BENEFITS

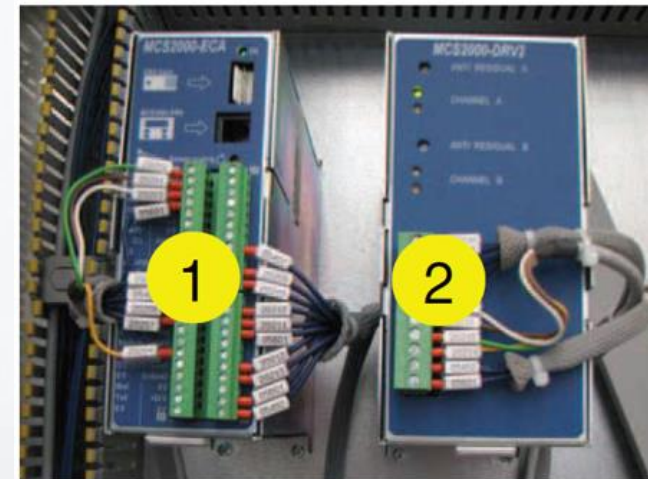

Safer solution with newer component available from Sidel.

- **Can prevent long downtimes in case of failure**
 - Utilization of Old type Warner MCS kit, used for braking management of the label reels, composed by “Logic unit” (1) and “Power unit” (2) installed on Rollquattro and Rollquattro Evo range of Labelers, is discontinued by OEM supplier.
 - Risk of imminent Spare Parts unavailability.
 - Risk of long Downtime for equipment at Bottlers prod plants.
- **Improvements Vs. old type**
 - Smaller space required inside the cabinet
 - Spare Parts granted availability

DESCRIPTION

- New system with XCTRL-2DRV “all in one” Warner system, including:
 - Single unit by Warner.
 - installation retrofit kit, hardware and software modifications material.
 - Sidel Automation engineer short intervention for installation and testing
