

12000h life for filling valves

SF044 - Pneumatic Piston Update for FM-S RFI Fillers

VALUE AND BENEFITS

Improved Components' quality and life (from 6000h to 12000h) granting

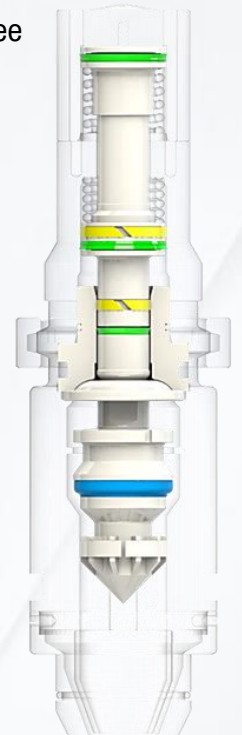

- Maintenance interventions' frequency decrease
- Reduced machine downtime (for maintenance or malfunctioning)
- No production of abrasive dust (which can damage the valve)

Value: Cost optimization / Maintenance
Equipment: Eurotronica FM-S (RFI), SELECT FMw (FMK)
Catalogue code: SF044

DESCRIPTION

- Internal valve's components (gaskets, pistons, guiding ring and membranes) are replaced with new generation ones
- New components are FDA approved and aromas transfer free

Valve configuration to be confirmed by technical dept.
