

Increase flexibility

Capdis Multi-Lane

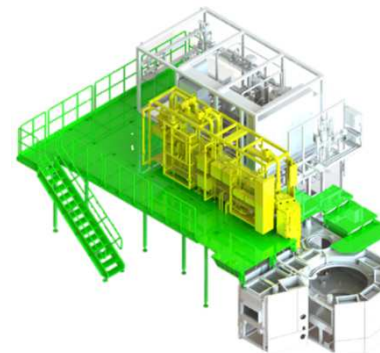

VALUE AND BENEFITS

- Increase flexibility
- Cost optimisation

DESCRIPTION

- This upgrade allows the conversion from the current *Capwet* or *Capdis single-lane* into the new *Capdis multi-lane* for Aseptic fillers.
- The new system consists of three lanes, therefore it will be able to manage more types of caps.

■ Main new/modified components:

- ① New *Capdis multi-lane* module (module G);
- ② Walkway;
- ③ Some P&I components;
- ④ Electrical and automation components.

Value: Flexibility
Equipment: FMa SRFH and SRFJ
Catalogue code: SP027
