

Increase Flexibility and Hygiene

FDA on FMa Combi Predis Configuration

VALUE AND BENEFITS

- FDA certification.

DESCRIPTION

- This upgrade allows the conversion from the standard FMa into the FDA machine for the Combi Predis configuration.
- The main modifications in the new solution with respect to the current one are:
 - Enhanced top down air flow (carousel and capper area);
 - Dual sterile filtration / pre-sterilisation cycle and SKID process update;
 - Gloves integrity control;
 - New upper walkway;
 - Bellows on Pick & Place;
 - Software/Hardware FDA update;
 - Blower FDA update.
