

Reduce machine shutdown times to replace chain drive wheels

Quick change system on chain drive wheels

VALUE AND BENEFITS

Maintenance

- Simplify wheels replacement (following normal wear)

Safety and ergonomics

- Maintenance operations simplified.

Flexibility

- Reduce machine downtimes for maintenance.
- Reduce maintenance crew to perform maintenance activities

DESCRIPTION

Replacement of main chain drive wheels owing to wear.

- No need to disassemble the reduction gear
- No need to disassemble the shaft
- No need of specific tools

Before

After

Value: Maintenance, Cost Optimisation
Equipment: Bottle washer
Catalogue code: VRB-034
