

Main Drive Torque Limit System

Gearbox Safety with Load Cells

VALUE AND BENEFITS

- Electronic safety control
- Prevent machine downtimes due to breakages of mechanical parts by continuously checking torque values on the HMI

Value: Maintenance, Safety & Ergonomy

Equipment: PAMA CL-CLD-CLDs, PAMA CW-CWD-CWDs

Catalogue code: VRP003

DESCRIPTION

- Replacement of existing mechanically adjustable safety system with the new electronic torque control system.
