

Internal Roof Cleaning

Roof Automatic Cleaning

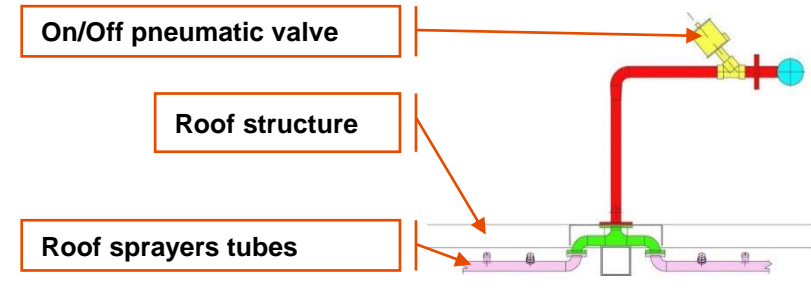

VALUE AND BENEFITS

- Increased machine cleaning efficiency (CIP).
- Reduction of maintenance times/costs (reduce manual cleaning activities)

DESCRIPTION

- Dedicated spray tubes are installed in each module of the machine structure under the roof.
- Externally, a pneumatic valve will supply the wash circuit only while the “CIP” program is running.

Value: Maintenance, Safety & Ergonomy

Equipment: D,DR, CW, CWD, CL, CLD, SW, SWD, SL, SLD
